GOUACHE

For the artist in you.

Some degree of painting talent hides within all of us. Regardless of the type of paint you choose and what you are planning to paint, you can simply pick up a brush and discover your own creative possibilities. All you need is good material to work with.

But above all, dare to try. Good luck!

In addition to gouache, Talens Art Creation provides various other techniques such as acrylic paint, oil paint and water colour. But as an artist you, of course, need more than just the right paint. Talens Art Creation provides auxiliary products that are useful for all artists. These include canvases, brushes, painting accessories and artists' easels.

Gouache is an opaque paint that is thinned with water. Surfaces can be painted matt without leaving any stripes. However, it is also highly suited to detailed work. As this paint dries within a few minutes, it is very practical to use. Gouache is not waterproof when dry, which means that when you add a little water to the dried colours they can be reworked. Before Gouache can be used, it first has to be thinned with a little water otherwise it is too thick to use. The more water you add, the more transparent the paint becomes.

Gouache is known for its colour intensity. It is in part thanks to this property that the paint is so popular amongst artists, designers and illustrators.
